Yorktown, VA 23692-4458

Re: VMRC #14-1763

Dear Mr. Reiser:

We are in receipt of your application seeking authorization to place approximately 208 linear feet of riprap toe scour protection along two sections of an existing timber bulkhead at property situated at the confluence of Wormley Creek and the York River in York County

Provided your proposed riprap does not extend channelward of the mean low water mark and will not involve State-owned submerged lands, no authorization is required from the Marine Resources Commission. For your information you may need authorization from your local wetlands board and/or the U.S. Army Corps of Engineers prior to commencing your project. Your application has been forwarded to these agencies.

Should you have any questions regarding this matter, please do not hesitate to contact me at (757) 247-2251.

Sincerely,

Randal D. Owen  
Environmental Engineer
